To Whom It May Concern,

It is with great pleasure that I write this letter of recommendation for Premier Care Nurses of America, who have been providing in-home care for my mother for the past 5 years, since her diagnosis of Alzheimers Disease. The staff at Premier Care, under Mirjana's direction, has consistently provided competent caregivers, who are genuine in their care and concern for my mom. Not living in Florida myself, Premier's high level of care has provided both me and my brothers with a great deal of comfort. I would recommend Premier Care Nursing without reservation.

Kathy Kottler
