To Whom It May Concern:

The Premier Care Nurses of America has my utmost gratitude for assisting my family to secure in home care for my 95-year old father and his wife before her recent passing. Mirjana Goforth is a true professional in all respects. She provides as needed services and diligently works with the family to understand the medical, physical, nutritional and psychological needs of her patients. Mirjana has a unique talent for "matching" the caregiver with the temperament and personality of her patients. Premier Care screens, conducts the ever-important background checks that are so critical to the peace of mind of those of us who engage her firm's contractors.

My family has worked with six of Premier Care Certified Nurses Assistants. Each of them has treated my father with the greatest dignity and respect. It was during the past two months that they have really demonstrated their capabilities. My father's wife (age 88) had a severe heart attack and subsequently passed away several weeks later. The aids took him to the hospital to visit his wife and stayed with him in his home. Without them, my brothers and sister who lives out of state would not have been able to have any peace of mind.

My father continues to live at home as he desires with their aides 24 hours per day, seven days a week. He has nothing but praise for their care. They take him to his doctors, on errands and out for social activities that keep him healthy and engaged. When I recently visited my Dad, I took him to several of his doctors. The physicians' office nurses made a special point of telling me (unsolicited) how the Premier Care nursing assistants accompany him and take notes to ensure that the physician's orders are understood and followed. They also call me to recap the outcome of the visits. One doctor's office nurse told me in effect-"we see a lot of these type aids here in south Florida, your dad has some of the best." What a comfort it was to hear those words.

I recommend Premier Care to individuals and families who want assistance by well trained and supervised individuals. Mirjana and her team have truly demonstrated they care.

Sincerely,

Pam Farr
