Subject: Thank you and Merry Xmas!

Hello Mirjana. I came across your card today and I thought I would send you a brief note thanking you again for all the care and personal interest you had taken with my mom Lois Molina. Mom is stable and doing as well as could be expected under the circumstances of the worsening of her Alzheimer's disease. She seems fairly content with things over the The Preserve, and when she isn't she says she is going to call you to COMPLAIN about it, but fortunately she has misplaced your number.

Seriously, and sadly, she doesn't really remember too much from recent years... but when I do mention your name a smile comes over her face.

Thanks again, Mirjana, and happy holidays.
